TEMPUS PROJECT PRESENTATION

Project title:
BUILDING CAPACITY OF SERBIAN AGRICULTURAL EDUCATION TO LINK WITH SOCIETY
Acronym: “CaSA”

Part 1. PROJECT SUMMARY

544072-TEMPUS-1-2013-1-RS-TEMPUS-SMHES
(2013 – 4604 / 001 - 001)
Sub programme:
Structural Measures, Action Higher Education and Society

Vesna Poleksić, Goran Topisirović
University of Belgrade, Faculty of Agriculture, Belgrade, Serbia

INTRODUCTION

This is a presentation of the CaSA project and the role it plays in linking research and innovation with knowledge improvement in agriculture. CaSA is a national project, coordinated by The University of Belgrade, Faculty of Agriculture.

It belongs to the TEMPUS sub-program Structural measures and the Action Higher education and society. These two benchmarks point out what are the main objectives of
the project: to improve quality and availability of vocational agricultural education; to strengthen competences of educators; to create a National Repository for Agricultural Education (NaRA) [3].

Basic course is strengthening links between higher education (HE) and society by building capacity of Serbian:
- University teachers from Faculties of Agriculture (FA)
- Agricultural secondary school (AMS) teachers
- experts in Extension services (ES)
to improve teachers’ competences in pedagogic skills and provide in-service vocational training courses.

Specific objectives of the project are:
- SO1 - Improvement of quality and availability of vocational agricultural education
- SO2 - Strengthening of professional and pedagogical competences of educators
- SO3 - Creation of the “open source” repository for educators in the area of agricultural education

Creation of a National Repository for Agricultural Education (NaRA) - a repository for online courses and teaching resources to ensure project sustainability and networking of all stakeholders in agricultural education.

There are 13 partners contributing to the project, 10 Serbian and 3 EU partner institutions. Serbian partners are 5 agricultural faculties from Belgrade, Novi Sad, Kragujevac, Novi Pazar and Sremska Kamenica, as well as Association of Agricultural Middle School in the area of agriculture, food processing and food production, Institute for Science Application in Agriculture responsible for in-service training of agricultural advisors, 2 NGO training organization (Education Forum and Balkan Security Network) and the Ministry of Education, Science and Technological Development of the Republic of Serbia. EU partners are universities from Timisoara (Romania), Maribor (Slovenia) and Foggia (Italy)

All project activities are grouped into 11 work packages.

The project lasts for 3 years (01/12/2013 - 30/11/2016) and aims to build the capacity of main holders of Serbian agricultural education: university teachers, teachers in agricultural middle schools and agricultural advisors working in extension services.

The CaSA project’s main achievement will be the creation of a NaRA, available as an electronic platform that should enable the sustainability of the project and connection of stakeholders involved in all levels of agricultural education and training in Serbia. This repository will include: information necessary for teaching traditional courses as well as online courses for professional development of Agricultural Middle Schools and experts in extension services; databases of results obtained by research; selected and recorded classes of interactive teaching; selected parts of courses realized and/or developed within the project, prepared in the form of online video tutorials and posted together with additional teaching contents; and other relevant contents added to the repository based on authorized decisions of the NaRA Advisory Board.

All project participants have agreed and signed the Constituent agreement on project implementation and NaRA management.
PROJECT SUMMARY

The project, coordinated by Faculty of Agriculture, Belgrade, will build capacity of Serbian faculties of agriculture to improve teacher’s competences in pedagogic skills as well as in their ability to provide distance learning in-service teacher training vocational courses for teachers in agricultural middle/secondary schools (AMSs) [1] and for experts in extension services. Networking of all relevant stakeholders in agricultural education as well as project sustainability will be enabled by creation of the National Repository for Agricultural Education (NaRA) [3].

At all Serbian Faculties of Agriculture and State University of Novi Pazar, courses in active teaching/learning (ATL) including e-learning for young university teachers and teachers from AMSs will be held during project lifetime. ATL courses, given by experts from NGO Education Forum, are important for both groups of teachers (University and AMS) since they did not have any pedagogical training during their graduate courses in agronomy.

University teachers, that have improved teaching competences and other academic skills, will develop and implement classical and web-based vocational courses targeting recent advances in agriculture for AMS teachers [2] and agronomists in the extension services as beneficiaries. It will be done in collaboration with University from Maribor and with University of Foggia, Italy. Implementation of these courses will be done in year 3 at AMSs under the supervision of EU partners. During the project lifetime NaRA will be formed with the help of EU partner from Agricultural University, Timisoara, Romania, to provide relevant information, to serve as stakeholder data-base and to be used as repository for e-learning courses developed in the project, as well as for various teaching materials developed during ATL trainings of both university and AMS teachers. NaRA will then become a platform for improving teaching skills of both, university and AMS teachers as well as for improving professional skills for AMS teachers and agronomists in the extension services. Since the agronomists working in the extension services lack: modern techniques of communication to work with farmers, as well as skills needed for preparation of project proposals, this project will provide training given by experts from NGO Balkan Security Network (BSN) for agronomists how to communicate with farmers and how to prepare a project proposal. Academic and communication skill courses, given by experts, will be recorded and stored together with accompanying teaching material as a live stream courses, available at NaRA for all university and AMS teachers and agronomists in extension services to be used after the project lifetime. Creation of NaRA will, therefore, provide sustainability of the project since all project deliverables (all types of e-learning courses and teaching materials) developed during project lifetime will be stored and available for future users. NaRA will also provide networking and active communication of all relevant stakeholders (Universities, AMSs, extension services, governmental and non governmental bodies). Sustainability of NaRA will be ensured after the project life-time by the support and recognition of the Ministries of Education, Science and Technological Development and of Ministry of Agriculture of the Republic of Serbia, as well as with some courses commercialization, while some databases, professional forums, and relevant information will remain open access. Management of the NaRA will be regulated by the Agreement between universities and other project partners.
Project partners

P1 University of Belgrade Faculty of Agriculture UB – coordinating institution
P2 University of Novi Sad Faculty of Agriculture UNS
P3 University of Kragujevac Faculty of Agronomy Cacak UNIKG
P4 University EDUCONS Faculty of Ecological Agriculture
P5 State University Novi Pazar SUNP
P6 Association of Middle Agricultural Schools AMS
P7 Institute for Science Application in Agriculture IPN
P8 Educational Forum (NGO) EF
P9 Balkan Security network, (NGO) BSN
P10 Ministry of Education, Science and Technological Development ME
P11 Banat University of Agricultural Sciences and Veterinary Medicine USAMVBT
P12 University of Maribor UM
P13 University of Foggia UNIFG

WORK PACKAGES AND PROJECT ACTIVITIES

WP 1 - Creation of the Repository
WP leader: Cosmin Salasan, USAMVBT, Timisoara, Romania
   A1.1. Organizing workshop in Belgrade with all relevant stakeholders to define structure and content of NaRA
   A1.2. Creating and maintenance NaRA

WP 2 - Infrastructural support for NaRA functioning / Development of resources
WP leader, project secretary: Goran Topisirović, UB, Belgrade, Serbia
   A2.1. Purchase of the equipment for improving/creating faculty e learning platform at every faculty/university and for NaRA at P1
   A2.2. Training of IT administrators at every faculty/university for maintenance of the platform
   A2.3. Engaging an IT expert for programming and software support
   2.4. Engaging one cameraman and film editor from University of Arts

WP 3 - Improvement of competences of university teachers
WP leader: Ana Pešikan, EF, Belgrade, Serbia
   A3.1. Training of university teachers in ATL
   A3.2. Training of university teachers in academic skills
   A3.3. Training of university teachers in methodology of creating vocational courses in elearning format

WP 4 - Modernization of teaching contents
WP leader: Snežana Tanasković, UNIKG, Čačak, Serbia
   A4.1. Need analysis for knowledge refreshment
   A4.2. Workshop in Cacak with EU partners to compare experiences and good practices
A4.3. Development of classical (f2f) vocational courses for AMS teachers and agronomists in extension service
A4.4. Development of web based vocational courses

WP 5 - Improvement of competences of AMS teachers
WP leader: Vidoje Vukašinović, AMS, Požarevac, Serbia
A5.1. Training of AMS teachers in ATL
A5.2. Training of AMS teachers in e-learning

WP 6 - Improvement of competences of experts in extension services
WP leader: Snežana Janković, IPN, Belgrade, Serbia
A6.1. Training of agronomists in extension services in using e-learning platform
A6.2. Training of agronomists in extension services in communication and project proposals preparation skills

WP 7 - Pilot implementation of vocational courses
WP leader: Ljubinko Jovanović, EDUCONS, Sremska Kamenica, Serbia
A7.1. Implementation of classical pilot vocational courses
A7.2. Implementation of pilot web based vocational courses

WP 8 - Quality assurance control of project activities
WP leader: Sofija Pekić Quarrie, SUNP, Novi Pazar, Serbia
A8.1. Creation of the body for project quality control
A8.2. Development of questionnaires for training courses evaluation
A8.3. Analysis of training courses feedback questionnaires
A8.4. QA of vocational courses – peer review by EU Partners
A8.5. Development of questionnaires for vocational course evaluation
A8.6. Analysis of course feedback questionnaires from pilot implementation of vocational courses

WP 9 - Dissemination of project results
WP Leader: Dušan Petrić, UNS, Novi Sad, Serbia
A9.1. Adopting a dissemination plan and identify target groups for dissemination
A9.2. Designing and maintenance of the project web-site
A9.3. Organizing other dissemination and visibility activities: briefings, presentations, press conferences and other events
A9.4. Publishing and dissemination of training manuals and guidelines
A9.5. Dissemination at Final conference in NS

WP 10 - Exploitation of project results
WP Leader: Predrag Pudja, UB, Belgrade, Serbia
A10.1. Reaching agreement between faculties' managements on: maintenance of NaRA, recognition of teachers work in courses preparation, availability of NaRA content, and courses commercialization
A10.2. Defining procedures for intellectual property rights of courses creators
A10.3. Preparation for accreditation of vocational courses for AMS teachers
A10.4. Preparation for certification of vocational courses for ES experts

**WP 11 - Project Management**

WP Leader, project coordinator: Vesna Poleksić, UB, Belgrade, Serbia

- A11.1. Organizing kick off meeting in Belgrade and SC meetings in: Belgrade, Čačak and N. Pazar
- A11.2. Establishment of SC and defining procedures of cooperation between partners
- A11.3. Daily project coordination and administration
- A11.4. Meetings of the local project teams
- A11.5. Regular reporting to EACEA
- A11.6. Organizing final conference in Novi Sad
- A11.7. Organizing final SC meeting in Novi Sad
- A11.8. Financial Audit

**CONCLUSION**

In conclusion of this first article presenting the CaSA project, it is important to emphasize that the whole project management and participants are working together to improve agricultural HE in Serbia and that the project Specific objectives are: Improvement of quality and availability of vocational agricultural education; Strengthening of professional and pedagogical competences of educators; and Creation of the repository for educators in the area of agricultural education will be reached.
